Laurentic Struck Off Coast of Ireland

SCALPING ARRANGEMENT FOR HON. R. ROGERS

Commissioner's Report on Manitoba Agriculture College Scandals Flays Borden Cabinet Minister Mercilessly

Mr. Justice Galt Says He is Unable to Place the Slightest Credence in Mr. Rogers' Statements, and Says There is an Irretrievable Conclusion That the Gratuitous Increase in the Contract Price, Made by Mr. Rogers and the Campaign Contributors, Afterwards Made by the Contractors, Are Directly Connected.

WINNIPEG, Jan. 30.—One of the most damning indictments ever made of a man in Canadian public life is contained in the interim report by Mr. Justice Galt, tabled in the legislature tonight, concerning the scandals attending the building of the Manitoba agricultural college.

Hon. Robert Rogers, minister of public works in the Borden government, and who at the time of the scandals was minister of public works in the Roblin government in Manitoba, is flayed mercilessly by the commissioner, who in effect, if not in so many words, calls Rogers a pure and unadorned liar.

"I cannot accept Mr. Rogers' statement," the commissioner says three times in the report, until, on the fourth occasion, he says, "I can give no credence whatever to Mr. Rogers' statement."

These preparations by Mr. Rogers are characterized by Mr. Justice Galt as "a desperate attempt to escape from an awkward dilemma."

Mr. Justice Galt refers to the laxity that had prevailed during Mr. Rogers' regime as Manitoba minister of public works. He dealt at length with the various contracts carried out by the Carter-Halls Aldridge company, the original cost estimate of the buildings, being \$207,000, and the cost actually paid, \$237,000, four times as much. Notwithstanding the repeated denials by the Hon. Robert Rogers in the witness box, the commissioner finds that he gave the Carter company a gratuitous increase of \$8,700 in respect of their contract for the power house. The commissioner also finds that this increased tender allowed by Mr. Rogers, and the mutual contributions to the Conservative campaign fund made by the Carter company, were directly connected—in other words, that the amount of the contract price was deliberately increased by Mr. Rogers for the purpose of securing campaign funds. These campaign contributions, the commissioner finds, amounted in all to \$22,000.

The report as a whole is but another chapter in the old story of the desperate public life in a province which has had unenviable notoriety of late years as a result of the slimy trail of the Roblin-Rogers regime.

Hon. Justice Galt, who is an eminent member of the Manitoba bar, was created a Judge of the Court of King's Bench in 1912 by the Borden government. Previous to going on the bench he was a member of the legal firm of Tupper, Galt, Tupper, Minly and McTavish, and was a lifelong associate of the late Premier, Sir John A. Macdonald.

A summary of the report which contains the evidence of the commissioner, as prepared by the Western Alberta press, is as follows:

The commissioner states that the original estimate of the cost of the buildings was \$207,000, whereas the actual cost was \$237,000, a difference of \$30,000. He states that the Carter-Halls Aldridge company tendered on this building at \$207,000, and that the government accepted this tender.

On July 15, 1914, the Carter-Halls Aldridge company tendered on this building at \$207,000, and that the government accepted this tender.

On July 15, 1914, the Carter-Halls Aldridge company tendered on this building at \$207,000, and that the government accepted this tender.

On July 15, 1914, the Carter-Halls Aldridge company tendered on this building at \$207,000, and that the government accepted this tender.

On July 15, 1914, the Carter-Halls Aldridge company tendered on this building at \$207,000, and that the government accepted this tender.

On July 15, 1914, the Carter-Halls Aldridge company tendered on this building at \$207,000, and that the government accepted this tender.

On July 15, 1914, the Carter-Halls Aldridge company tendered on this building at \$207,000, and that the government accepted this tender.

On July 15, 1914, the Carter-Halls Aldridge company tendered on this building at \$207,000, and that the government accepted this tender.

On July 15, 1914, the Carter-Halls Aldridge company tendered on this building at \$207,000, and that the government accepted this tender.

On July 15, 1914, the Carter-Halls Aldridge company tendered on this building at \$207,000, and that the government accepted this tender.

On July 15, 1914, the Carter-Halls Aldridge company tendered on this building at \$207,000, and that the government accepted this tender.

On July 15, 1914, the Carter-Halls Aldridge company tendered on this building at \$207,000, and that the government accepted this tender.

A Discredited Minister

Former Minister of Militia Reiterates His Recent Charges

PUTS MOST BLAME ON SIR W. WHITE

Large Crowd is Attracted by Sir Sam's Speech

WINNIPEG, Jan. 30.—Sir Sam Hughes, former minister of militia, who is now in the city for the first time since his resignation, was the guest of honor at a public meeting held in the Manitoba Agricultural College auditorium.

With regard to the increase in the price of the buildings, Sir Sam said that he was not responsible for the increase, and that the blame should be placed on the contractors.

BIG CRUISER

WENT DOWN IN TEN MINUTES

Immense Hole Bored in the Side of Ship by Explosion

ABOUT 260 MEN LOST IN SINKING

For a Time the Sea Was Dotted With Struggling Men

LONDON, Jan. 30.—The Admiralty announces that the British auxiliary cruiser Laurentic, formerly a White Star liner, was sunk off the coast of Ireland by a mine, and not by a submarine.

The Laurentic, a vessel of 14,000 tons, was sunk last Thursday. Twelve officers and 109 men of her crew were saved.

About 260 men were lost in the sinking, many of them having been killed by the explosion of the mine which sank the former White Star liner to the bottom last Thursday, says a despatch to the Press Association from Belfast.

The despatch says the Laurentic struck the mine off the north coast of Ireland and sank in about ten minutes. A big hole was blown in the side of the ship by the explosion.

Several boats, which were quickly launched and manned by survivors, were engaged in the vortex of the sinking ship. The wreckage was dotted with struggling men, some of whom were seen to be blown and swept. The remainder of the ship was seen to be blowing and the weather was intensely cold.

Only half and half of all the crew were saved. The remainder of the crew were seen to be struggling in the water and some of them were seen to be struggling in the water and some of them were seen to be struggling in the water.

This was a small plane, and the few survivors were seen to be struggling in the water and some of them were seen to be struggling in the water and some of them were seen to be struggling in the water.

OF BLOCKADE OF GERMANY

Lord Robert Cecil Describes Work Of British Navy

(By Morning Bulletin Special Wire)

LONDON, Jan. 28.—Speaking of the war in Germany, Lord Robert Cecil, minister of blockade, said Britain did not intend to crush Germany, but to show and inspire Germany with the real reality of a blockade.

It was the business of the Allies first to carry out a successful blockade, and he believed that victory could be won on way in the field.

It is not enough that we might have Germany's blockade, said he, but we must be able to carry it out.

"I do not think we should be right in trusting to a blockade alone," he said. "We must be able to carry it out."

He said that the British navy was doing its best to carry out the blockade, and that the British navy was doing its best to carry out the blockade.

He said that the British navy was doing its best to carry out the blockade, and that the British navy was doing its best to carry out the blockade.

CITY COUNCIL PROCEEDINGS

CITY COUNCIL AGREES TO AMALGAMATE OF CALDER WITH CITY CORPORATION

Without Any Dissent, City Solicitor is Instructed to Take Action to Bring About Proposed Union of Blacksmiths of City Asks For Enforcement of Early Closing Bylaw—Amicable Agreement With Alliance Power Co.

The need for better-lodged streets at the home from may have had a contributing influence in an uneventful speeding of the council's line of action at last night's meeting, for whatever the cause, the business was cleared up with dispatch and an adjournment passed by 9:30 o'clock.

Among the items of business discussed was the report of the special committee from the council in respect to the application from Calder residents for the council in respect to the city. It was shown that the village was prepared to join with the city providing the electric light and telephone lines were not taken into consideration and that funds on hand in the village at the time of amalgamation be expended on the improvement within the village.

Without dissent the council voted that the city solicitor be instructed to take whatever action may be necessary to bring about this amalgamation. The total assets of the village were shown in an auditor's report submitted last night to be \$2,524.70, the surplus thereof being \$1,873.45.

In response to questions, Mayor Henry and the members of the council were asked to be derived in Calder and in the city. The council, however, was not in a position to do so.

Difference Over Wages.
A commissioners report dealing with the case of the city employees who were employed on the new market and building and the city employees for the difference between the city wage scale and that paid by the city.

At the evening, Aldermen, Kinney and Phelan argued that despite the fact that the men concerned in the strike had their cases, and may have been engaged as subcontractors, as was asserted, they should be protected by the city.

A motion by Ald. Macdonald was to file the report. An amendment by Ald. Kinney and Phelan was to file the report with the instructions to the city to workmen the city employees, where it was shown, the city employees justified. An amendment was carried to the effect that the report be referred back to the committee on this being supported by Aldermen Macdonald, Grant, McArthur, Wilson, Martin and McArthur.

Facilities For Women.
Rev. W. A. Lewis and others appeared at a departmental meeting of the council last night to take up the matter of extending water and sewer facilities to Westwood. The matter, having been discussed on several previous occasions, and it being recognized one of serious importance, was turned over to the committee for a report.

A report of J. B. Hawling against the city's failure to provide for the public works committee was referred to the committee. A petition signed by the majority of the owners and joint owners for the enforcement of an early closing bylaw for blacksmiths was presented. It was asked that the city should be asked to take the necessary action to enforce the bylaw.

Traders for Amalgamation.
The commissioners report dealing with the matter of the city employees was referred to the committee. A petition signed by the majority of the owners and joint owners for the enforcement of an early closing bylaw for blacksmiths was presented. It was asked that the city should be asked to take the necessary action to enforce the bylaw.

No thermometer can do justice to the prevailing atmospheric conditions that is not provided with a wind gauge, also cars and feet.

Sir Max Aiken says he warned the Government last May that there was bound to be serious trouble on account of the Ross River. With his usual up-to-datedness as a Tory, Sir Max probably heard about that time that a battle had been fought at St. Julien in the spring of 1915.

News that traffic facilities are to be provided on the railway bridge across the Peace River will be welcomed by the settlers who have pushed the frontiers of the farming belt into the fertile country beyond the stream, and by the people of the town of Peace River, which is to be thus put in favorable position to secure the trade of the settlements north of the river.

The Journalists, in professing to think that the Bulletin's suggestion that National Service be held in the afternoon, is a ploy to refuse to fill out the cards. It claims to understand that the Bulletin is not a party receiving these cards should send them to the munition factory owners, instead of filling them out and sending them to the Government. That conception is quite as foolish as the action suggested. What the Bulletin plainly meant was that the Government should send cards to the owners of the munition factories asking them to fill out the cards and send them to the National Service. What is the objection to that?

The four western provinces are represented in Parliament by thirty-two members of the House of Commons. The census of 1911 showed that the population of the four provinces was 1,100,000. There is in this another illustration that the House of Commons is not a fair representation of the population of the Dominion.

LEGAL INQUIRIES
Legal questions will be answered in this column. The Bulletin's lawyers will be glad to answer any question on the law of the Dominion. The Bulletin's lawyers will be glad to answer any question on the law of the Dominion.

Citizenship. Will you please answer in your column, What constitutes Canadian citizenship? If a person comes to Canada from another country, what must he do to become a Canadian citizen?

Home Loans. (1) A person who has a home in Edmonton, signing a loan, can he give notice of leaving and still keep the house? (2) Can a person who has a home in Edmonton, signing a loan, can he give notice of leaving and still keep the house?

Mr. J. C. Miller, Provincial director of Technical Education and District Educational Officer for the Military Hospital's Commission, "On the Internal Survey and the Resumed Sale."

Jan. 16, 1947.—Report to committee on Suggestions for Promoting Agricultural, Industrial and Trade Development.

Public meetings were arranged by the board for the purpose of enabling citizens to hear notable addresses.

Sir Rider Haggard and Sir George Ester.

Effort to Secure Military Camp.

reference must be made to one of the unsuccessful efforts and that was an attempt to secure a military camp in this city for the training of our own troops. In co-operation with the council a site, which was thought

[illegible]

Transportation Matters. The railroad board has watched very closely the interests of the shippers of the West. Arrangements were made by which freight for the R.D. & N. Co. is to be carried free, as discussed at the meeting. The Interstate Commerce Railway Commission is expected to carry out forward to the shippers the changes in rate structure which are successful and the tariff reduced. The railways, said a member of the committee, are looking for the furnishing of a new type of freight car, which is to be designed, but the board would be disappointed if the board should not be able to checkers are still available. The board is protesting against new railway

increasing rates on certain commodities from Pacific Ocean points. Edmontons and points east—and new tariffs were withdrawn and old rates restored. Our representatives secured a heated car service on B. D. and H.C. A great deal of work and effort has been expended during the year on two long questions, reaching over the water are still undecided, namely the water application principle of special commodity rates and the proposed new freight classification. The approval of the new one been delayed and it is believed that some progress is being made and that our contentions are

approved by the Board of Ways Commissioners. The profits of the railways to raise the surcharge charges were considered excessive and we suggested to the Ways Commission an intermediate rate. The scale actually adopted is now in effect approximately very close to our suggestion. Numerous other questions have come up from time to time and we are glad that thanks to the courtesy and genial spirit of co-operation on the part of the local officers of all railways the board's efforts have resulted in many improvements in the freight

Home Made Products Exhibit

The boards' staff called on to cooperate with the Edmondson Consumers' Club in the latter's very successful campaign of Edmondson made products. Last September, and we have since then, we have been able to sell:

gram of Edmonton's Debt. Therefore, the figures are for 1993 and Strathcona until amalgamation then Greater Edmonton. Since from 1990 to 1994, it has necessary to greatly increase

[illegible]

we are supporting the citizens of Edmonson will use to rue that year's work for day.

I know, the comparatively increase in the debt in 1915 was almost part of the making up of the loss in that year it was not added to the top of the debt a fourth kind, namely, of debentures issued against taxes. To conform with rational expression of falling into would be better if the charge made down. It is the case as with an individual, a stubborn thing and this is the

Civic Assessment. In the diagram showing decline, four years of the assessment should be extrapolated for viability and for the same figure in the table are for only. Therefore, until after for Edmonton and then Greater Ed-

assessment diagram does not any detailed comment, but early the facts as known to the high point was reached

ance while there have been no direct taxes on land. I stated in my report that the very serious increase directly caused by the drainage of areas. In 1907, the total Edmonson alone impressed on acres to 5000 acres. In 1911, it was a further increase to 6000 acres, and in 1912, it was 7000 acres. While this explains the increase, it perhaps does not help with the justification of them. I have enclosed a copy of the **Tables of Taxes Levied and Collected**, which is a direct list of the year 1911, and shows the Edmonson only and not Edmonson. Moreover, there were no figures available for the penalties added, or the

of the. I could have been responsible for the taxes, into numerous tax issues. I could have been responsible for the tax issues, as well as the special local improvement purposes, and would show clearly the things which are out of control. As the debt became a constant increase, the rate must do likewise. It is of this that the general total decline from 1915 through 1925, the saving in controlling the debt clearly been all of it. I intended this diagram, however, mainly with the point of

The figures in which the bookkeepers have the most trouble are those from the countries of the city where there are constant readjustments already published in previous years, and the fact is stated that there is no control available as a total of the actual amounts for the earlier years. The figures in this report of some thousands of dollars actual arrears as at December 31, that is, if you add the old and pending added value from it the income decreases almost a column.

near enough for the purpose diagram and the actual arrears as a result of the 1974 cleanup and subject to revision and discounts and possible adjustments in the future.

Previous	\$ 895,502.96
1974	1,121,417.61
1975	1,626,121.25
1976	1,662,400.96
1977	36,246,086.25

The figures show the clear space at the top of the column of taxes. The \$1.41 billion of anticipated tax collections of the batched part for 1976 and 1977 are the arrears of 1974 of the cleanup. I think the situation indicated
